Professional Educator

One platform. Unlimited possibilities.

Four modules.

One adaptive learning cycle.

AI LEARNING LAYER

- ✓ **Learning styles** based personalization
- ✓ **A.R.I.A** - your 24×7 available AI tutor
- ✓ **Visual Learning Studio** with mindmaps, flashcards & more....

SUPPLEMENTAL LEARNING

- ✓ Access to **10,000+** Immersive 3D Models
- ✓ **2500+** Interactive Simulations & gamification
- ✓ **AI-curated content** (Textbooks, PPTs, DIYs) & Expert-led video Lessons

ASSESSMENT LAYER

- ✓ **Unlimited** adaptive practice tests
- ✓ Get Exam-ready with **AI-powered Mocks**
- ✓ **AI-based Evaluation** for writing & diagram practice

LEARNING ANALYTICS

- ✓ Detailed **Knowledge gap analysis** with AI
- ✓ Auto-creates **Personalized Remedial plans**
- ✓ **Real-time dashboards** for students, teachers and parents

PAL is a continuous, adaptive cycle that improves as students learn.

How PAL Personalize Learning for every student

"Human anatomy is the study of the structure of the human body. It describes how the body is organized into systems-such as the skeletal, muscular, nervous, circulatory, respiratory, digestive, and reproductive systems that work together to support life."

8
Grade

Personalized Text

Your bones are the strong frame that holds you up, your muscles help you run, jump, and kick, and your heart and lungs keep energy and oxygen flowing so you don't get tired too fast.

Every part has a role, just like players on the field, and when they work together, your body performs at its best.

11
Grade
(NEET)

Personalized Text

Bones give the body its basic form, muscles create movement and contour, and organs work behind the scenes to keep everything alive and balanced.

Knowing anatomy helps you see how the human body is built, making it easier to understand proportion, posture, and realistic detail in art.

Transforming Institutions for the AI era.

How one platform empowers students, teachers, parents, leaders & society

Students

Learn at own pace
Instant support
Fair assessments

Outcome: Faster mastery & higher engagement

Teachers

Reduced workload
Identify learning gaps
Maintain teaching control

Outcome: 6-10 hours saved per week

AI School core

School Leadership

Consistent outcomes
Evidence-based decisions
Operational simplicity

Outcome: Unified dashboards & measureable improvement

Personalised Learning

Immersive Content

Assessment Intelligence

Governance & Ethics

Secure Infrastructure

Parents

Data Protection
Transparent Progress
Trust in AI decisions

Outcome: High trust & clear visibility

Employer/Society

Skills for future jobs and careers
Responsible, ethical, and value-driven citizens

Outcome: Equipped for the Ai era

Government

Scalable education.
Compliance and sovereignty
Future-ready workforce

Outcome: Ethical, compliant AI at scale.

Real students. Real outcomes.

I struggled with organic chemistry.

ARIA answered my 2 AM doubts and the AI mindmaps linked ideas I'd missed. Practice tests targeted my weak spots. **In 8 weeks my predicted score rose from 78% to 93%.**

— Priya, Grade 10 (CBSE)

★ **78% → 93%**
In 8 weeks

My mock rank moved from
1,200 to <400 with
targeted JEE practice.

- Aarav, JEE aspirant

PAL curated niche research
papers and simulated my
thesis defense.

- Dr. Sarah Chen, PhD

Your Partner In the AI Learning Revolution

Solutions: AI solutions for K-12 and test prep.

Integration: Works with existing LMS platforms.

Onboarding: White-glove setup for enterprises.

Support: Dedicated team and teacher training.

Security: GDPR- and FERPA-compliant security.
